

TARA VALLEY FACT SHEET

Flower Carpet Roses

Flower Carpet Roses are a gardener's delight! These easy to maintain roses provide masses of colourful blooms and lush green growth, all the while withstanding hot and dry conditions, making them perfect for Queensland gardeners! These plants are prolific bloomers and are bred to resist most pests and diseases. The Rose Flower Carpet Range can be found in a variety of colours, from the pastel pinks of Apple Blossom to the crimson colours of Scarlet and vivid yellows of Amber, with many more available. These high impact, low care plants have won multiple international awards, and it's easy to see why!

Genus: *Rosa* **Species:** *spp.*

Growing: The Flower Carpet Roses range is fast growing and loves full sun. At maturity the height is approximately 1 metre tall and 1 metre wide.

Soil: These plants prefer soil that is well drained and rich in organic matter. They can tolerate dry conditions, but water regularly during flowering season for best results.

Water: Once established only water when dry. Thrives in hot weather and is drought tolerant.

Foliage & Flowering Features: Flowering predominately from Spring through to Autumn, the main feature of the Flower Carpet Roses are the masses of stunning blooms. These large flowers open to create a colourful display and contrast well with the lush green leaves.

Origin: Germany

Uses: The Flower Carpet Roses range is great for brightening verandas or patios in pots, but these plants really come into their own when used in landscaping arrangements. Cover bare garden beds or exposed areas in the yard with a beautiful array of colours, these roses make excellent flowering ground cover. They can also be used as low hedging or borders.

Maintenance: Low maintenance - give slow release fertiliser in the warmer months for flower promotion and plant growth.
